Basic Testing and Controlling Pool Water & Basic Diagnostics Maintenance of Pool Systems & Maintenance of Pool Systems

PROGRAM DESCRIPTION:

This combined session is the introduction to water chemistry, correct testing of pool water and ending with basic diagnostics for pool systems. This session is designed specifically for those that are recently employed or those that need a refresher in the 'how to' of pool and spa chemistry and pool system maintenance best practice procedures.

DURATION:	Online: 2 Hours	Face to Face: 4 Hours
SPASA CPD Points:	2 Points	4 Points
COST:	\$100 Member \$130 Non-Member	\$295 Member \$330 Non-Member
DATES:	8.30am, Wednesday 27 April (Locations TBA)	Wellington: 8.30am, Tuesday 2 August Auckland: 8.30am, Tuesday 23 August Christchurch: 8.30am, Tuesday 27 September

Advanced Water Chemistry / Automation

PROGRAM DESCRIPTION:

In this advanced session we look into specific water chemistry processes and reactions such as Sanitisers/Oxidation/Algaecides/Specialty/Balancers and the use of secondary sanitiser systems. The second part of the session is based on automation - for those that install and service automated systems into swimming pools and spas.

DURATION:	Online: 2 Hours	Face to Face: 4 Hours
SPASA CPD Points:	2 Points	4 Points
COST:	\$100 Member \$130 Non-Member	\$295 Member \$330 Non-Member
DATES:	1.00pm, Wednesday 27 April (Locations TBA)	Wellington: 1.00pm, Tuesday 2 August Auckland: 1.00pm, Tuesday 23 August Christchurch: 1.00pm, Tuesday 27 September

All Workshops are eligible for SPASA CPD, SPASA Certified and SPASA Accredited programs. Visit [irlearning.com](https://www.irlearning.com) for more information. For more information on Online Courses please visit: courses.irlearning.com

Note: IRLearning reserves the right to deliver workshops online due to either COVID-19 restrictions or sufficient numbers not being reached for face to face delivery.

COVID-19 Workshop Notice: IRLearning is required to observe COVID-19 related restrictions when delivering face to face workshops. These requirements may require IRLearning to acknowledge the vaccination status (unless exempt) of students before attending. Once registered for a workshop, IRLearning will communicate directly with students on what is required.
